

MHANGWANI NDIMA KARABO

COMPUTER SCIENCE GRADUATE

0603552745 | mhangwanikarabo@gmail.com

Location: Gauteng

<https://github.com/Ndima-karabo17>

PROFESSIONAL SUMMARY

Recent Diploma in Computer Science graduate with hands-on experience developing web applications using Java, JavaScript, React, Node.js, Express.js, HTML, CSS, and SQL. Strong foundation in object-oriented programming, RESTful API development, database management, software testing, debugging, and version control using Git. Passionate about software engineering, continuous learning, and solving real-world problems through technology. Thrives in collaborative Agile environments and is eager to contribute to innovative software solutions while growing alongside experienced development team.

EDUCATION

National Diploma in Computer Science | Tshwane University of Technology 2022-2025

- Relevant Coursework: Software Engineering, Database Design, Advanced Programming
- Specialized in building web applications and modern full-stack development.

Matric Certificate | Gawula High School

2021

- Successfully completed Grade 12.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript (ES6+), TypeScript, SQL, Python

Frontend Development: HTML5, CSS3, React, React Native

Backend Development: Node.js, Express.js, RESTful APIs

Database Technologies: SQL, MySQL, Database Design

Software Development: Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC), CRUD Operations, Software Testing, Debugging, Code Optimization

Development Tools: Git, GitHub, NetBeans, pgAdmin4, Visual Studio Code

Methodologies: Agile, Scrum, Version Control

Professional Skills: Research, Problem Solving, Team Collaboration, Communication, Attention to Detail, Adaptability, Continuous Learning

Core COMPETENCIES

- Software Development
- Object-Oriented Programming
- Software Testing
- Debugging

- Agile & Scrum
- Research & Development
- REST API Development
- SQL Database Design
- Team Collaboration
- Problem Solving
- Continuous Learning
- Attention to Detail

Software Development Projects

Grocery List Web Application

- Designed and developed a responsive grocery list application using React, TypeScript, and Node.js.
- Implemented CRUD functionality and input validation for efficient data management.
- Tested, debugged, and optimized application functionality to improve reliability.
- Applied problem-solving techniques to resolve software defects
- Improved reliability and usability through testing
- Used Git for version control throughout the development process.

Library Management System API

- Developed a RESTful backend API using Node.js and TypeScript for library record management.
- Designed and implemented CRUD operations for efficient data processing.
- Applied structured programming principles to produce maintainable and scalable code.
- Tested, debugged, and optimized API functionality to improve reliability.
- Strengthened understanding of backend development, software testing, and database integration.

CERTIFICATIONS

- **Database Design** (Crucial for banking systems analysis).
- **Introduction to SQL** (Core skill for financial data management).
- **JavaScript Algorithms**: Problem solving and logical data manipulation
- **Responsive Web Design**
